

TÔ GIA HUY

Mobile Developer (Flutter & Android)

 [linkedin](#)  [github](#)  [gmail](#)  [0776 103 283](#)  [portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Mobile Developer experienced in Flutter and Android (Jetpack Compose). Proven track record in building and publishing production apps using modern architecture (MVVM, Riverpod), AI integrations, performance optimization, and CI/CD pipelines. Eager to deliver high-impact mobile products.

EDUCATION

SAIGON UNIVERSITY

B.S. in Software Engineering

2022 – Present

GPA: 3.2 / 4.0

- **Award:** University-level Scientific Research Award – Excellent distinction (May 2025)

TECHNICAL SKILLS

Mobile: Flutter, Jetpack Compose, Riverpod, MVVM, CameraX, Media3 ExoPlayer, VietMap GL

Backend & Cloud: FastAPI, Firebase, PostgreSQL, MySQL, Cloudinary, RESTful APIs

Tools: Git, GitHub Actions (CI/CD), Kotlin, Dart, Postman, Android Studio, Gemini API

EXPERIENCE

ICIP LAB

July 2025 – Sept 2025

Mobile Developer | Lá Chấn Xanh | Team of 20

- Developed core UI components and animations in **Flutter**, contributing to **40%** of features including dual learning modes and secure authentication.
- Launched production app on Google Play and App Store, achieving **500+** downloads in first month.

PROJECTS

MacroShot

Aug 2025 – May 2026

Flutter · Riverpod · FastAPI · Gemini AI · Firebase · CI/CD · Team Leader (2)

- Integrated **Google Gemini Vision** for automated meal recognition and personalized nutrition with FCM push notifications.
- Applied **optimistic UI** and **debounce** techniques to significantly reduce loading time and backend bottlenecks.
- Implemented OAuth2 + JWT, Cloudinary storage, and automated CI/CD with GitHub Actions.
- **Link:** [Google Play](#)

Automatic Demonstration

Mar 2026 – May 2026

Flutter · VietMap GL · Geofencing · Riverpod · Offline-First

- Built geofence-triggered audio guide with high-precision GPS (2m accuracy) and Offline-First strategy.
- Supported localization in 5 languages with persistent theming.

TikTok Clone

Jan 2026 – Apr 2026

Kotlin · Jetpack Compose · Media3 ExoPlayer · Paging 3 · Firebase

- Developed short-video platform featuring infinite scroll, CameraX recording, and real-time interactions.
- Built scalable backend with multi-provider OAuth and Firestore synchronization.
